

# Conservation

By: The Conservation  
Committee

---

## Zebra Mussels

-They're an invasive species...

But what does that  
mean?

We see invasive species  
as

the *enemy*,

the *culprit*,

the *problem*.

## Exhibit A

The Homo Sapien

We are **responsible**  
for the habitat  
destruction in  
Minnesota by our

- Fracking,
- Urbanization,  
and
- Farming  
methods

We Are Responsible  
For the Solution.

*The state of our state.*

What have we done?

# The Result?

## Biodiversity Disruptions

- Endangered species
- Invasive species
- Loss of habitat

## Water Quality Concerns

- Water levels
- Purity of drinking water
- Preservation of landmark lakes and rivers

What we can do.

Educate.  
Change.  
Be the Balance.
